Follow-up certification

After initial certification, the following procedures will be followed:

- 1. A yearly up-date by means of a self-declaration of the company regarding
 - a. legality and governance.
 - b. possible minor non conformities that need to be settled.
 - c. Results of possible monitoring requirements.
 - d. Other relevant changes concerning company or peat bog.

A 5-yearly inspection of certified production sites and other obligations;

After-use

After production has ceased (location abandoned), the after-use phase starts. The company will supply periodical information to the Foundation on results of implementing the after-use. The progress in the fulfilment of the after-use plan will be published on the website of Responsibly Produced Peat (public accountability).

When company believes it has complied with the after-use obligation;

- 1. the company will inform the secretariat with substantiated arguments (confirmed by stakeholders).
- 2. depending on the situation, desk- or site inspection will take place to confirm if the after-use obligations have been met.

- 1. CoE can be asked to evaluate documents and formulate advice to the Certification Body
 - 1. Bernd Hofer
 - 2. Ron Bleijswijk
 - 3. Sabine Jordan
 - 4. Silke Kumar
 - 5. Nerijus Zableckis
- 2. CoE evaluates data and does its utmost to formulate an unanimous decision or advise. An advice requires approval of at least 2/3 of the members present. When necessary, the secretariat arranges a meeting or conference call.
